most advanced student of political and social problems connected with the society. He had a knack of saying things clearly. He was uncompromising in his views, was a combative, militant thinker, courageous and even pressing for intellectual right and moral principles in general. I regarder Wilson they as a man whose ideas er Wilson they as a man whose ideas of right would never swerve.

"While at the university- Woodr Wilson contributed two papers to Bright and the other on Gladstone. In these articles he traced the growth of British democracy and the close touch of the British people with the government, and showed how much more democratic was the English government than our own. They were luminous articles, and one of the Richmond papers in discussing them editorially called attention to the value of such work at the university, and predicted a career of great public usefulness for Mr. Wilson."

It looks as if that prediction will be

A Pathetic Case.
To the Editor of The Times-Dispatch.
Sir,—Mrs. Sarah Davis, aged thirtyfive, a hard-working widow with an
afflicted son seven years old to support,
in a helpless consumptive. Leading
physicians say treatment at Catawba
will restore her if treated now; otherwise the case is hopeless.
She is not eligible for "Pine Camp."
Catawba is not a free sanatorium.
The charges are \$5 per week. I appeal
to the Richmond public to help this
worthy widow. The treatment requires an expenditure of \$150. I will
head the list with \$30.
Yours truly,
MRS THOMAS F. MEANY.

FEW APPOINTMENTS THROUGH FAVORITISM

BY LA MARQUISE DE FONTENOY.

It is to the Mikado, or to give him his more correct title, the Tenno, that Japan is indebted for the introduction of competitive examinations for every office of the civil service of the empire. So strict and farreaching is the application of the system, that the appointment of incompetents through favoritism is practically unknown. The imperial universities and the government departments of education have co-operated with the crown in the matter, and the University of Tokio has even a special department for the training of provincial prefects or governors, where one set degree, everything should be done to retain the bonds of union between the to well we take two halves of the dual empire especially in military and economic methods the two hear the ton her beauty and economic methods the two the tall the bonds of union between the two hear the ton her beau cial department for the training or franking privilege. It would only be logical and appropriate that a Congressman's perquisites should follow him all his days.

There must be ten thousand pockets pleces and other old coins in Virginia. Every day we get inquiries as to the value of this or that coin, and from the elaborate descriptions and drawth of the country of the prefects and sub-prefects of provincial government, and in due course are promoted to governo the country of the prefects and sub-prefects of provincial governments of Japan are special instruction, of an order to equip the first of the distinction of the various provinces into which the Empire of the Rising Sun is divided.
